News Release

Snapfish Retains Paradigm After Change in Ownership

June 10, 2015

SAN DIEGO, Calif., June 10, 2015 – District Photo recently purchased Snapfish from HP. Snapfish management had asked for Paradigm's support through this transition. The result is that Snapfish has retained all Paradigm employees who support the new organization and their product! Please join us in congratulating these associates while they continue their transition.

"It speaks to the contributions that our associates make and the value that the Snapfish organization sees in Paradigm," said Claudia Griva, Paradigm Client Services Manager, of the continued partnership.

This is a great affirmation of the service we provide and great news for our hardworking associates.

About Paradigm Information Services

Paradigm Information Services specializes in matching talent with opportunity. We bring our clients the best people and our people the best jobs. In addition to paying competitive rates, Paradigm offers its full-time employees a comprehensive benefits package. Our recruiting and hiring process is designed to ensure a good fit for both client and candidate.
